**RATE SCHEDULE EFFECTIVE OCTOBER 1, 2025 AS FOLLOWS:**

|                 |                             |
|-----------------|-----------------------------|
| 0-2,000 gallons | \$25.00 minimum             |
| 2,001-over      | \$6.00 per thousand gallons |

How to use the water rate schedule:

A minimum monthly bill is \$25.00 and includes up to 2,000 gallons. For each additional thousand gallons used over 2,000, the rate is \$6.00 per 1,000 gallons.

Example:

If you used 5,000 gallons of water, you would multiply 3,000 gallons used by .006 (\$6.00 per thousand gallons) and add \$25.00 for the first 2,000 gallons used. Then add the two figures together for your monthly water bill, in this case the total being \$43.00.

**SEWER RATES:**

|                          |                         |
|--------------------------|-------------------------|
| \$62.00 no usage minimum | \$7.00/thousand gallons |
|--------------------------|-------------------------|

How to use the sewer rate schedule:

A minimum monthly bill is \$62.00 for no usage. For each thousand gallons the rate is \$7.00 per 1,000 gallons.

Example:

If you used 5,000 gallons of water, you would multiply 5,000 gallons used by .007 (\$7.00 per thousand gallons) and then add the \$62.00 minimum. The sewer portion in this case is \$97.00.

**COMMERCIAL SEWER RATES (DUPLEX SYSTEM):**

|                           |                         |
|---------------------------|-------------------------|
| \$124.00 no usage minimum | \$7.00/thousand gallons |
|---------------------------|-------------------------|

**WATER TAP FEES**

|                |            |
|----------------|------------|
| ¾ inch tap fee | \$900.00   |
| 1 inch tap fee | \$1,800.00 |
| 2 inch tap fee | \$3,200.00 |

**SEWER TAP FEES:**

|               |         |
|---------------|---------|
| Sewer Tap Fee | \$4,550 |
| Sewer Pumps   | \$3,000 |

**SERVICE CHARGES**

|                      |          |
|----------------------|----------|
| Non-pay Service Fee  | \$65.00  |
| Sewer Service Charge | \$75.00  |
| Sewer Tank Pumping   | \$200.00 |
| Meter Tampering Fee  | \$250.00 |
| Return Check Fee     | \$25.00  |
| Late Fee             | \$15.00  |
